WORK EXPERIENCE

Triple N Water Systems

June 2019 – Present

Plumber Assistant

Varies, AZ

- Reduced Total Dissolved Solids (TDS) levels from the typical 200 to 500 ppm range to around 100 ppm or lower, significantly improving water quality.
- Managed inventory and ensured availability of the right tools and resources, enhancing job efficiency and reducing installation time from 8 hours to 5 hours for long softener jobs.
- Led a customer-focused approach resulting in over 5 years of satisfied customers.
- Installed and replaced Reverse Osmosis (RO) systems and water softeners in residential and commercial properties across Arizona, ensuring optimal water quality.

Local Neighborhood

June 2018 – Present

Tutor and Caretaker

Gilbert, AZ

- Provided comprehensive educational support and nurturing care as a tutor and caretaker.
- Developed tailored learning plans and implemented structured schedules to facilitate academic progress and personal development.
- Helped two students graduate high school and guided them through the college application process, resulting in their successful admission to college.
- Assisted high school students in achieving straight A's by adapting teaching methods to meet individual needs and fostering a supportive learning environment, leading to outstanding academic performance.

DoorDash

May 2022 – January 2023

Delivery Driver

Gilbert, AZ

- Successfully completed around 100 deliveries while maintaining a 5-star rating, demonstrating a strong work ethic and customer satisfaction.
- Consistently delivered orders approximately 20% faster than the estimated time, showcasing exceptional efficiency and time management skills.
- Managed DoorDash deliveries with exceptional efficiency and reliability.
- Focused on customer satisfaction through timely order fulfillment and communication.

Projects

Tabletop RPG Development Projects

March 2014 – Present

Game Designer

Gilbert, AZ

- Leveraged 10 years of experience to create engaging tabletop games with innovative mechanics and captivating gameplay.
- Demonstrated creativity in developing and refining game mechanics, ensuring strategic depth and player engagement.
- Collaborated with teams to test and iterate designs, incorporating feedback for improved mechanics and game balance.
- Developed comprehensive rule systems, character development paths, and narratives, enhancing the overall gaming experience.

OfferUp Product Flipping Spree

June 2018 – May 2020

Product Flipper

Gilbert, AZ

- Conducted in-depth product research to identify high-demand items, demonstrating strong market analysis and negotiation skills.
